

I urge you to...

Labor Crisis:

...Support legislation that provides immediate relief to growers that use the H-2A visa program. Bipartisan efforts to finally modernize the program and bring wage certainty for users of the program must be approved by Congress to ensure American agriculture can compete in a global marketplace.

Farm Bill:

...prioritize support for the Specialty Crop Farm Bill Alliance recommendations and push for passage of a bipartisan Farm Bill this year.

Nutrition and Growing Consumption:

...improve access and consumption of fruits and vegetables by:

- Expanding the Fresh Fruit and Vegetable Program.
- Including more fresh produce in USDA procurement programs.
- Growing fruit and vegetable incentives in SNAP.
- Supporting implementation of the updated WIC food package.
