

AGRICULTURE: HOW WE CAN HELP YOUR BUSINESS

With agriculture being one of the world's most important industries, consumers want assurance of safety and quality at every stage of the process. NSF International offers a full range of food safety and quality services for the agriculture industry to deliver the assurance, confidence and brand protection clients are looking for.

AUDITING, CONSULTING AND TRAINING SERVICES

NSF provides auditing, consulting, training and farm services to agricultural businesses, farmers and growers worldwide. Areas of expertise include food safety, consumer assurance, environmental protection, animal health and welfare, biosecurity, traceability, sustainability, worker welfare and Good Agricultural Practices (GAP).

CERTIFICATION

Separate from consulting and training services, NSF companies are the leading certifier for international, national and retailer standards such as the Global Food Safety Initiative (GFSI) benchmarked standards PrimusGFS, GLOBALG.A.P, CanadaGAP, SQF and BRC.

NSF currently offers unaccredited audits to the United Fresh Combined Harmonized Food Safety Standard, as well as accredited audits of the GLOBALG.A.P. Harmonized Produce Safety Standard throughout the Americas.

About NSF International

NSF International is an independent, global organization that facilitates standards development, and tests and certifies products for the food, water, health sciences and consumer goods industries to minimize adverse health effects and protect the environment. Founded in 1944, NSF is committed to protecting human health and safety worldwide. With operations in 180 countries, NSF International is a Pan American Health Organization/World Health Organization Collaborating Center on Food Safety, Water Quality and Indoor Environment.
